Kanon Pattern Plow

Spheres rugs bring a multidimensional, contemporary eye to traditional artisanal craft techniques. Hand made and richly haptic, they share traits and hues with the curtains in the collection. Notably, they fuse graphic and organic elements to express a vibrant sense of movement.

The sensuous expressions of the *Spheres* rugs derive extra depth from nuanced colour blends. These are meticulously calibrated to resonate with the rugs' refined materials and the particular character of each design.

Kanon Pattern Plow reinterprets the archetypal construction of *Kanon*. It alternates a unicoloured pile with pile-free ribs to create a rhythmic, tactile structure. An interplay of black and white cotton yarns forms the rug's background. Borders crafted with a denser ribbed structure complete its expression. The rug's colours match *Kanon*, opening a multitude of combination possibilities.
